

Pharmacy Automation

BlistMED™

BlistMED

Automate the labor intensive process of packaging blister cards, to free up staff time and focus on your patients.

Up to 10 blister cards can be packaged continuously, streamlining workflow and minimizing packaging time.

Improve fill accuracy, efficiency, and patient safety, while taking up minimal footprint.

Special Tablet System (STS) trays allow for uninterrupted packaging flow of non-canister medication

Easy-to-transport detachable magazines streamline workflow

Automatic Canister Recognition System enables you to swap canisters on the fly, minimizing the need for manual additions

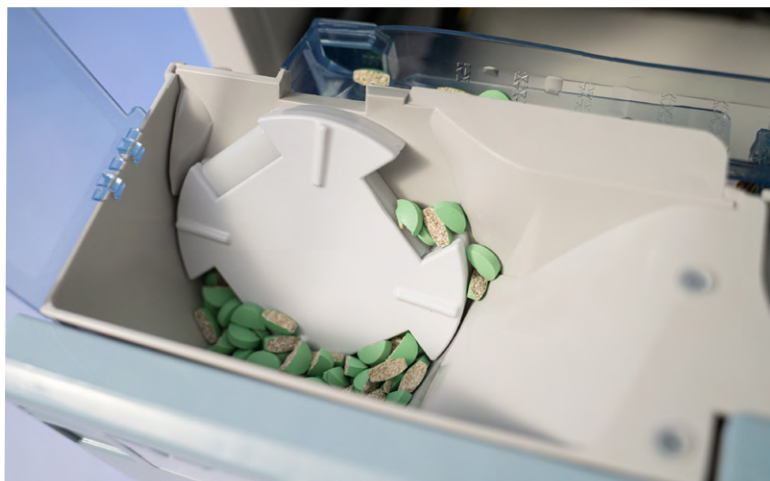

Improve efficiency

Accelerate growth

Protect patient safety

Auto-Canisters automate filling of partial or odd-shaped tablets.

BlistMED Benefits

Efficiency

- Package blister cards with more accuracy and in significantly less time, versus the manual process.
- Automate filling of partial tablets to limit manual intervention and streamline workflow.
- RFID driven canisters allow swapping and refilling during operation, limiting idle time.

Growth

- Continuous packaging of up to 10 blister cards to maximize workflow.
- Build your blister packaging business and increase revenue, without increasing your staffing.
- Flexibility to add additional canisters, if needed, as your business grows.

Safety

- RFID trays ensure the right medications go to the right patients.
- Auto-canisters allow the packaging of your highest use partial pills, drastically decreasing the risk of fill errors.
- Lot & expiry tracking and logged packaging history, adds traceability and piece of mind.

BlistMED Specifications

Dimensions	
Width	39"
Depth	25"
Height	85"
Weight (Excluding canisters)	
957 lbs	
Canister capacity	
202 canisters + 2 auto-canisters (Expandable with additional swappable canisters)	
Maximum Working rate	
25-30 cards/hour with one operator	
Tray capacity	
Holds 10 cards at a time	
Power consumption	
150W (MAX. 180W)	

All tablet holders can be detached for easy cleaning and maintenance.
