

Pharmacy Automation

COUNTMATE™

A CountMate C84 model is depicted. The image shown here is for illustration purposes only and may not be an exact representation of the product.

Experience unprecedented production with CountMate. This quiet automated vial filling robot provides a space-saving front access design, allowing for placement against a wall to maximize workspace.

Efficiently count multiple prescriptions simultaneously using trusted canister technology and two multi-tasking robotic arms for uninterrupted production. The two multi-tasking robotic arms work in tandem to fill vials, photograph, label, and drop-off prescriptions into 18 lanes sorted by patient.

CountMate produces up to three vials per minute. Choose between 84 or 168 canister models to suit various pharmacy footprints.

Space & Versatility

Workflow & Efficiency

Security & Traceability

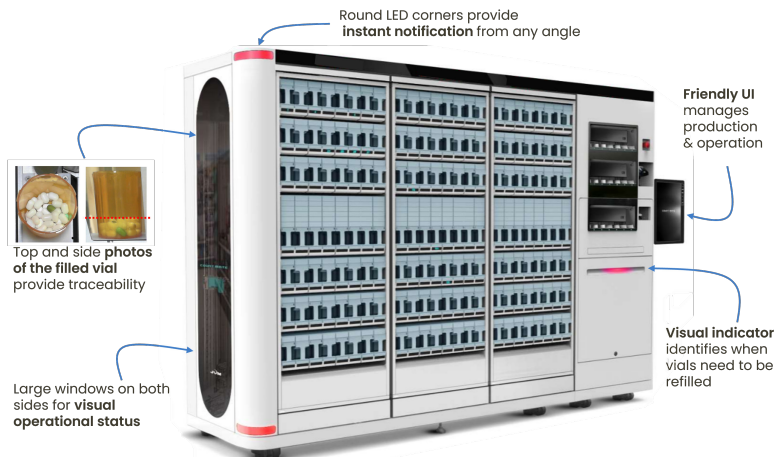

Biometric vein reader provides added user security and traceability.

Fill directly from the canister to the vial to eliminate cross-contamination.

Sorting lanes grouped by patient expedite prescription pickup.

A CountMate C168 model is depicted. The images shown here are for illustration purposes only and may not be an exact representation of the product.

CountMate Benefits

Space & Versatility

- Quiet operation allows device placement anywhere in the pharmacy, enhancing the overall employee and patient experience.
- One-sided access reduces required square footage and optimizes workspace.
- Simultaneous filling and replenishment minimizes downtime.
- Supports 13 dram and 30 dram vials in various colors for maximum versatility.

Workflow & Efficiency

- Canisters count simultaneously, holding filled counts in dedicated chutes within the robot.
- Two multi-tasking robotic arms enable simultaneous filling, photography, labeling, and vial drop off.
- Produce up to three vials per minute for unmatched productivity, with trusted hardware and software technology.
- Replenish canister inventory during production to avoid incomplete prescriptions and the need to return part fills back to stock.
- Sorting lanes are grouped by patient to expedite prescription pick up.

Security & Traceability

- An internal camera captures an image of every vial from both the top and side for traceability and easy audit.
- Barcode driven verification ensures patient safety and accuracy when replenishing canisters.
- Integrated biometric vein reader for additional security.
- Secure canisters with optional locking doors to monitor medication access and prevent loss.

CountMate Specifications

	C84	C168
Dimensions		
Width	74"	111"
Height	77"	77"
Depth	30"	30"
Weight*	2,094 lb	2,425 lb
Capacity		
Canisters	84	168
	72 standard Up to 12 super	144 standard Up to 24 super
Speed		
	Up to 160 vials/hour	
Electrical Requirements		
	120V~, 60Hz, 5A (500W)	

* Weight excluding canisters.

Pivoting sections allow for easy cleaning and maintenance.

Our team empowers businesses of all sizes in the pharmacy industry, driving productivity, efficiency, and innovation through meaningful partnerships and a wide range of expert services.
