PACMED® DOC Series

Photo disclaimer: A PACMED DOC174 model is depicted. The images shown here are for illustration purposes only and may not be an exact representation of the product.

Slim design. Serious control.

Grow beyond long-term care. Serve a wide range of patients with complex needs without adding complexity to your operations.

PACMED simplifies pouch packaging with customizable options that fit your workflow. Save time, reduce errors, and deliver a personalized experience so your team can spend less time on manual tasks and more time with patients.

PACMED DOC offers a single-door design, available exclusively through PharmaComplete Technology Solutions.

Fridge-style door swings open for easy access to canisters.

Pouches for each administration date/time, and reminders for non-oral solids.

2 standard auto-canisters
for partial tablet dispensing.

Special Tablet
System (STS)
tray for
non-canister
medications and
partial pills.

PACMED DOC174 Benefits

Efficiency

- A slim design and high canister-count produces more pouches without needing more room.
- Powered by trusted hardware and software, PACMED ensures uptime so your time is spent on patient care, not managing pouches.
- Special Tablet System (STS) trays, universal canisters, optional accessories, allow for uninterrupted packaging of non-canister medication and partial pills.
- Built-in shelf slides out to create a convenient workspace for refills.
- EASY REFILL canister extensions allow medications to be replenished quickly without removing canisters.

Safety

- An automatic locking door guarantees safe storage of controlled and/or high-cost medications.
- Barcode driven verification prepopulates lot number and expiry date while ensuring patient safety and accuracy during canister replenishment.
- Improve patient's medication adherence with daily medication pouches and optional reminder pouches for medications external to the pouch (e.g. a nitroglycerin patch).

Growth

- Handle more prescriptions without adding more team members all while delivering patients an experience they'll come back for.
- Expand your target market beyond long-term care to independent and active seniors.
